

GVSP-100 SPEAKER

An efficient and weather-resistant solution for your warning system

The GVSP-100 is a versatile 100 watt speaker assembly for use in outdoor personnel warning applications. The GVSP-100 is for directional sound and signalling distribution where wide-angle dispersion and maximum audibility are required. The horn features a heavy-duty steel mounting bracket with an easy to use lock for horizontal and vertical positioning in single or stacked multi-unit clusters for top warning.

FEATURES

- o Superior intelligibility for voice and tone signalling
- o High-efficiency driver with proven performance reliability
- o Brackets for precise positioning
- o Environment resistant for outdoor use
